

Make the right choice

There are many things to be considered when choosing a cleaning system, such as filtration quality, the shape and size of the pool, the number of skimmers, corners and nooks and whether it is in your main or secondary residence. Your needs will basically be defined by the specific features of your swimming pool, your budget and the time you have for cleaning.

ZODIAC® ACCESSORIES FOR YOUR ROBOT

Protective cover

Except Vortex™ 1

60, 100 and 200 micron filter canisters

* Vortex™ PRO and Vortex™ PRO 4WD

60, 100 and 200 micron filter canisters

CyclonX™ PRO

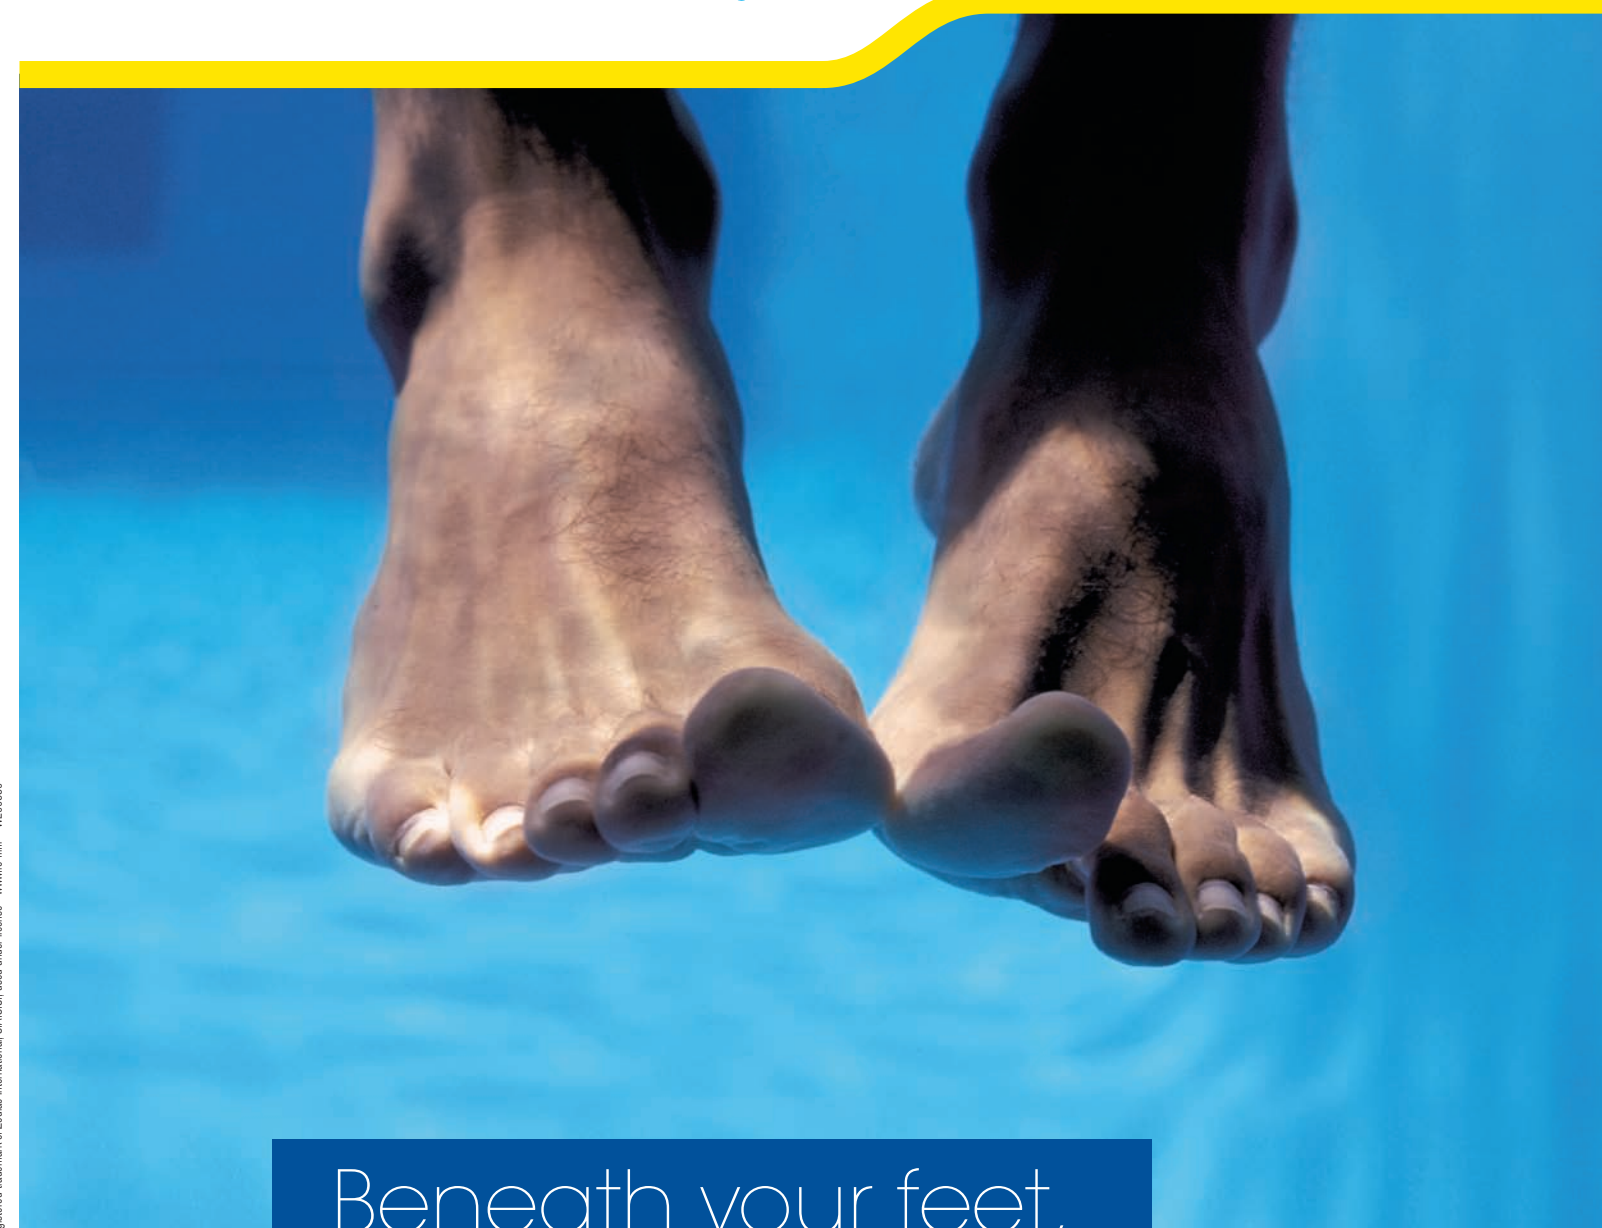

ZODIAC® RECOMMENDATIONS

So that your cleaner keeps its cleaning ability year after year, Zodiac® recommends cleaning the filter canister at the end of each cycle and changing brushes at the end of the season.

ZODIAC®
a better life®

ELECTRIC
CLEANERS

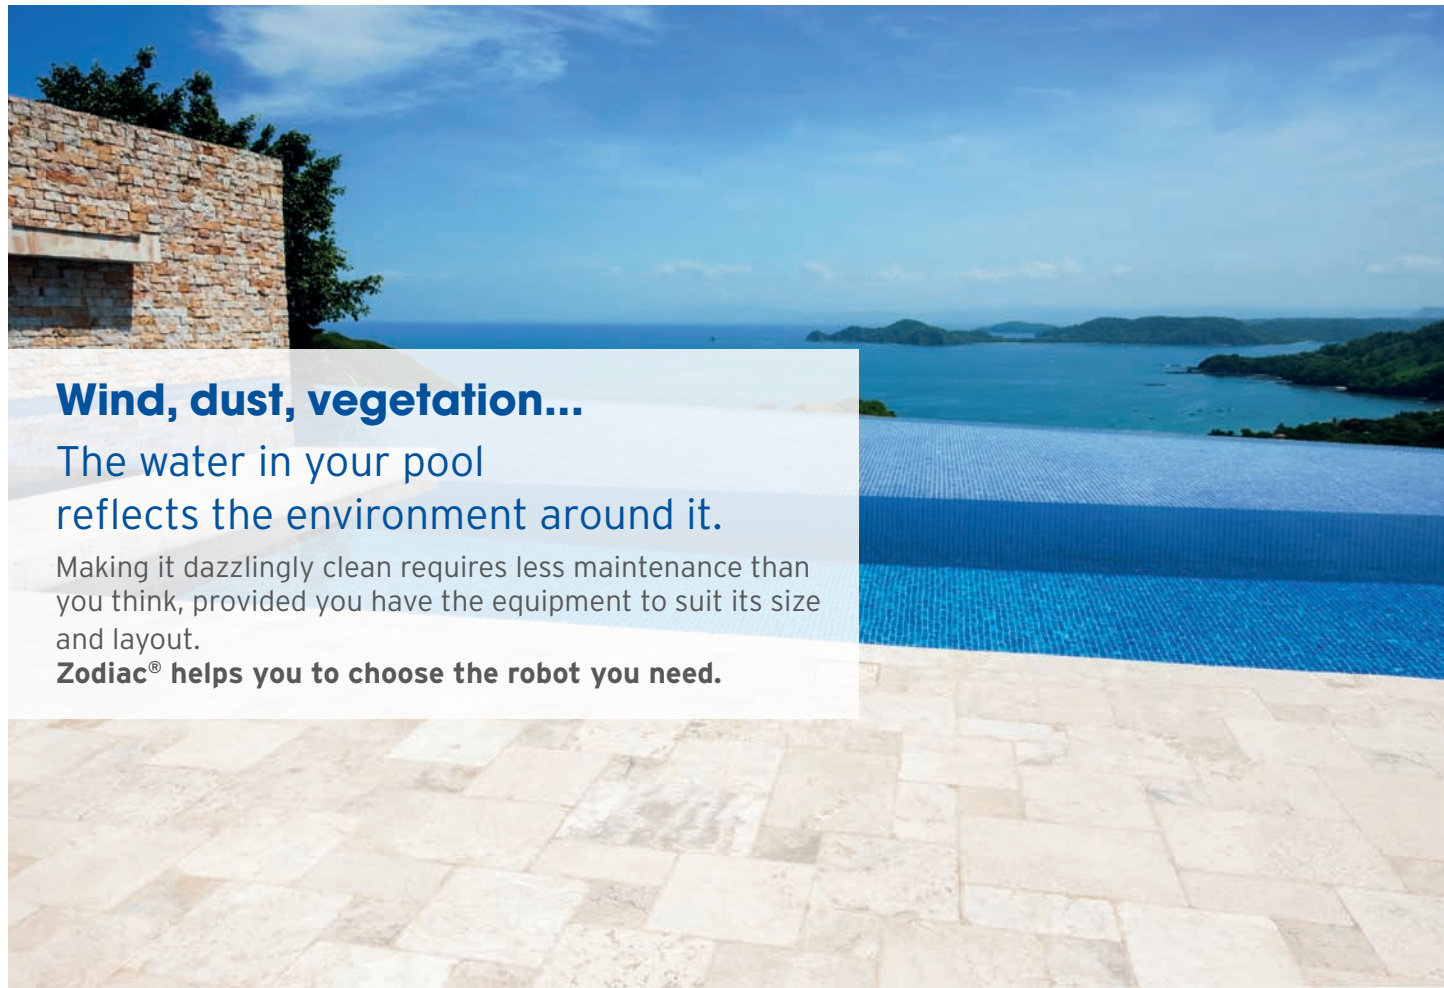

Beneath your feet,
immaculate water.

Choosing the right robotic cleaner with Zodiac®

ZODIAC®
a better life®

Wind, dust, vegetation...

The water in your pool reflects the environment around it.

Making it dazzlingly clean requires less maintenance than you think, provided you have the equipment to suit its size and layout.

Zodiac® helps you to choose the robot you need.

Financially accessible and easy-to-use

Are you looking for a solution which is simple to connect to your pool's filtration system?

THE RIGHT CHOICE

Zodiac® hydraulic robots

They work on the energy produced by your pump. Depending on the model, two types of technology are used. Firstly, debris is captured using the suction effect. Secondly, and more sophisticatedly, pressure is used to speed up the robot. In both cases, these units are especially suitable for pools with flat or gradually sloping floors.

Autonomy and performance

Do you want the best? Do you want a powerful fast cleaning system for your pool?

THE RIGHT CHOICE

Zodiac® electric robotic cleaners

They combine the best of Zodiac® technology. Independent of the filtration system, this Plug & Play equipment is autonomous and traps dirt in its own filter Canister. Equipped with true artificial intelligence, they reach every corner of the pool, climb the walls, clean the waterline and come in a variety of models for all types of pool.

USEFUL INFO

Electric cleaners entail a greater investment than hydraulic cleaners, but their speed and capabilities for cleaning the entire pool (floor and walls), right up to the waterline, meet even the highest requirements.

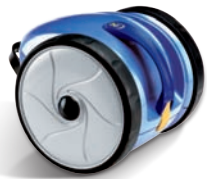

ZODIAC® PRO RANGE ELECTRIC ROBOTS ALL THE POWER OF CYCLONIC SUCTION

Patented Zodiac® technology creates a high power vortex inside the filter. Suction is constant throughout the cleaning cycle and debris is kept permanently in suspension, preventing clogging in the filter.

Vortex™ 1

The most compact robot in the Vortex™ range.

Its small footprint and light weight make it easy to handle and store. The built-in mini-brush and filter canister allows the Vortex™ 1 robot to clean the floor of your swimming pool perfectly, using minimum power.

CyclonX™ PRO RC 4400

Equipped with the Push'n'Go™ function, a patented Zodiac® innovation, accessing the RC 4400 filter is much easier. One click is all you need!

With 6 cleaning cycles, you can select 1hr, 1hr 30min and 2hr floor cleaning programs, or deep-clean the floor, walls and waterline with 2hr, 2hr 30min and 3hr programs. The filter-full indicator and transparent window help to ensure that the quality of filtration is maintained.

Vortex™ PRO RV 4400

The cleaning gold standard, and ergonomic too.

RV 4400 incorporates the innovative Zodiac® Lift System, which, thanks to a powerful water jet activated when removed from the water, reduces the effort required to remove it by 20%. It is also fitted with an XXL 5-litre filter canister that is easy to empty, as well as an extra-large suction nozzle and a filter-full indicator on the control box.

Suitable for all shapes of pool (up to 12 x 6m) and all types of floors.

Vortex™ PRO 4WD

RV 5400

The 4 wheel-drive cleaner, that provides great grip on all types of surfaces, along with unique speed and quality of cleaning.

It comes with a trolley and the innovative **Zodiac® Lift System**, which reduces the effort required to remove it from the pool by 20%. 7 day programming cycles available. 2 cleaning cycles (floor in only 1hr 30min; floor + walls + water line in 2hr 30min).

Filter-full indicator. Contact+ brushes for stronger brushing on all types of surfaces and around the waterline.

RV 5500

The 4-wheel drive remote-controlled robot, capable of negotiating obstacles and gripping all types of floors, for impeccable cleaning in all shapes of pool.

RV 5500 combines all Zodiac® technologies: it is equipped with the **Lift System** (20% less effort to get out of the pool), a control box providing a range of programs, a filter-full indicator and Kinetic remote control to guide the robot with a simple wrist movement.

Equipped with a trolley and Contact+ brushes for stronger brushing on all types of surfaces and around the waterline.
